

Cooperating Technical Partners

ASFPM Monthly Conference Call

April 11, 2017 2 – 3 pm

Attendees: Amanda Flegel, Thuy Patton, Dave Knipe, Laura Algeo, Steve Story and Alan Lulloff

CTP Co-chair

Amanda is stepping down and will be greatly missed. We discussed potential candidates – the only restriction is that we want some geographic diversity. It was decided that we will discuss this in KC.

Upcoming Webinars

Robert Mason with USGS reached out to ASFPM about providing training on Bulletin 17C. So we are looking at a CTP on this topic in June. Steve has an agreement with USGS to do Bulletin 17C updates on two stream. Will be publishing a report on the results.

Best Practices

Indiana provided an article for the March CTP Collaboration Monthly that is was suggested could be upgraded to a best practice.

CTP session at ASFPM Conf.

We plan to provide a notice to CTPs registered for the conference to tell them about CTP activities at the conference. Amanda provided Laura with a list of topics for the FEMA updates. The session will again be from 3:30 to 5 pm on Monday. The basic agenda will be an overview of CTP subcommittee goals and activities, FEMA updates and open discussion. We again discussed how to ensure people provide input on the potential topics for upcoming webinars since last year few voted.

Dave indicated that for the M&ES Committee meeting Rick Sacbabit will be presenting on Large Scale Engineering and Structure-based analysis. In addition, there will be an early bird session on 2D modeling led by Suzanne Jawani.

Laura provided a listing of CTP related sessions in KC and asked us to check the program to see if any were missed.

CTP National Award

The initial poll to shorten the list to 3 closes on April 14th. The final vote will be at the Cooperating Technical Partner Community of Practice call on April 19th. Laura indicated that the CTP national award will be presented at the M&ES Committee meeting by Nick Suffro.

Next CTP conference call

The next scheduled CTP subcommittee conference call is during the KC conference. The June call conflicts with the CTP CoP call therefore an alternate date will need to be selected.
