

Cooperating Technical Partners – ASFPM CTP subcommittee Monthly Call – November 13, 2019

Attendees: Alan Lulloff and Brooke Seymour

The most requested topic when we polled attendees on our September 19, 2019 Floodway – Original Intent webinar was LOMR review. Brooke and Maria provided names of people that are subject matter experts on the topic. Alan contacted Ben Kaiser who agreed to present on the topic. We are looking at having a second speaker. Alan suggested that Mile High Flood District LOMR Review Partners effort would be a good topic to supplement Ben's presentation on the LOMR review process. Brooke indicated that it would be difficult for her but that other staff at the district could possibly present. (Brooke followed up after that call and indicated that she could present.

Alan indicated that there were some specific issues associated with LOMRs that we felt would best be addressed with a subsequent webinar that would focus on best practices.

Regarding Best Practices we have put the best practices provided by Brooke into the FEMA templat but that some additional detail is needed. Brooke indicated that if I would provide them to her she would pick one in which that would add some additional detail.
